

Lining Up

When our class goes somewhere we line up.

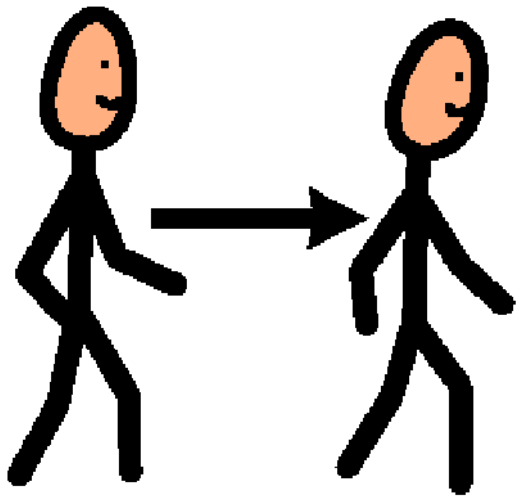

I might be standing anywhere in the line.

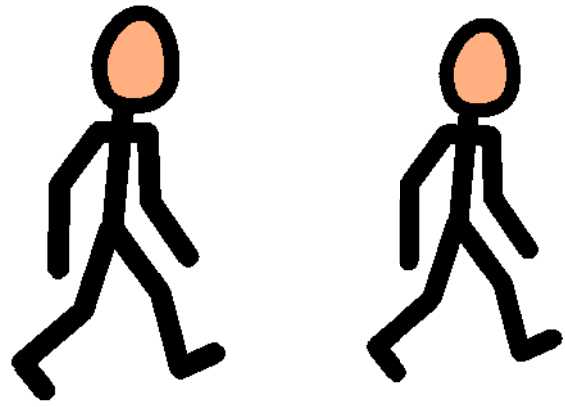

Wherever I am in the line, it's important to leave space between me and the person in front of me.

If I stand too close the person in front will be unhappy.

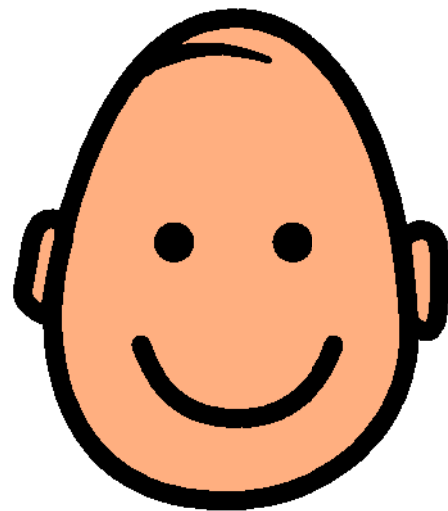

When I'm in a line I will watch and keep some space between me and the person in front of me.

When I'm in line I will keep my hands to myself.

The rule is "No grabbing other people"

Then the other children will be happy and I'll be happy too.
